

The classes start at 9am until 5pm with lunch and coffee breaks

The student will chose 2 classes per day

7/1/2019	7/2/2019	7/3/2019	7/4/2019	7/5/2019	7/6/2019	7/7/2019	7/8/2019	7/9/2019	7/10/2019	7/11/2019	7/12/2019	7/13/2019	7/14/2019
R for Data Science													
Python for Data Science													
		Intro to Statistical Inference											
		Intro to Machine Learning											
				Introduction to Urban Data Science									
				Natural Language Processing									
				Introduction to Computer Vision and Image Processing									
				Deep Learning									
							Time Series Forecasting						
							Deep Learning in Computer Vision						
							Introduction to Survival Analysis and Use Cases						
							Recommendation Systems						
							Theoretical and Applied Bioinformatics						
									Theoretical and Applied Bioinformatics				
									Text Classification with Fasttext (with custom Tensorflow implementation)				
									Web scrapping and econometrics				
									Data Science for Health Care				
									Building your Data Science Platforms with AWS				
										Working on projects			
												Project presentations
